Autocom 2013 - 1.2.2.7013. Office 2013 Vsto. Autocom 2013 Crack (Autocom Delphi). Autocom 2013 Crack's 1.2.0.7013 is the new version. Autocom 2013 Version 1.3.1.2504 crack is the new version of Autocom Download Autocom - Delphi 2015/2019 software Cdp 2013 1 keygen version. Autocom - Delphi 2015/2019 software Cdp 2013 1 keygen version. Autocom - Delphi 2015/2019 software. Autocom - Delphi 2015/2019.Q: how to use case query in oracle sql query i am trying to use Case Statement in Oracle SQL. I have a table in which column

contains country names. Now i want to do select all the countries which are covered with a particular value. For Example select country from test where country = 'AF' so my final result should be USA CAN If i try to use Select Case Statement. It doesn't work and here is my attempted use of CASE Statement select case when country = 'AF' then 1 else 0 end from test Please help A: Check the following example. Case expression is expected to return only one value: select case when country = 'AF' then 'USA' else 'CAN' end from test You can use multiple-value case with: select case when country = 'AF' then 'USA', 'CAN' else null end from test If you want to return multiple rows, use: select case when country = 'AF' then listagg(country, ', ') within group (order by country) end from test To extract multiple rows from the same list, use: select listagg(country, ', ') within group (order by country) from test where country = 'AF'

The Toronto Raptors hit another road block in their season, losing again this week against the pesky Milwaukee Bucks. The team is hitting a rough stretch, but, it has to be encouraging to see the main rotation in tact. Jonas Valanciunas was one of the few bright spots of the young season, and along with Patrick Patterson, are the two players that I believed were helping the Raptors early on to victory. Despite the recent back-to-back loss to the Bucks, the Raptors still are in a prime spot as a
